Employees**

**HAP
IS HERE**

With the facts about your HMO — and peace of mind for your family.

Not your ordinary HMO plan

When enrolled in HAP's HMO plan, you can choose your doctor from thousands of highly qualified primary care physicians (PCPs). Chances are, your current doctor and hospital are already part of an established network of providers. As a HAP member, you'll choose a PCP. Your PCP may recommend specialty services from a certain specialist or facility, but you can choose to receive the care you need from any HAP-contracted specialist without a referral.

With HAP, you can change your PCP at any time. And everyone on your plan can select the PCP of their choice.

HAP has the top doctors and hospitals

As a HAP member, you can choose from thousands of doctors, in addition to Michigan's leading hospitals.

- Ascension Genesys Hospital
- Ascension Providence Hospital
- Ascension St. John Hospital
- Corewell Health
- Covenant HealthCare
- Henry Ford Health
- McLaren Health Care
- Trinity Health (Mercy Health)
- University of Michigan Health System
- ProMedica
- Saint Joseph Mercy Health System
- And more

Plus, if you need to see an in-network specialist, there's absolutely no referral needed. Explore the options at [HAP.org/doctors](https://www.hap.org/doctors).

HAP and its subsidiaries do not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation or health status in the administration of the plan, including enrollment and benefit determinations.

HAP35060 - 11/2023

No referral needed

With this plan, your care is coordinated through your primary care physician. Your PCP will provide your preventive care, keep your medical history updated and help you choose a specialist if you need one.

When you need to see a specialist for an initial consultation, you don't need to get a referral from HAP.

\$0 copay virtual visits through HAP Telehealth

Telehealth services refer to convenient "virtual" visits between patients and doctors through communications technology. Utilizing HAP Telehealth, powered by Amwell*, your virtual care benefit gives you access to a provider from the convenience of your home with \$0 copay.

myHAP Card digital ID card

myHAP Card is a digital ID card that makes it easy to:

- View the ID cards of everyone on your plan
- Share your ID card via email or fax

myHAP Card digital ID card is free and available at the Apple and Google Play app stores.

Take the worry out of your travel plans

HAP and Assist America are there to help when travel emergencies happen. When traveling 100 miles or more away from home or in another country (for no more than 90 days in a row), Assist America will arrange and pay for all services it provides.

Find out more at HAP.org/hap-member/assist-america.
