

**HAP
IS HERE**

Bringing the pharmacy to your doorstep

Pharmacy Advantage is helping you get the prescriptions you need at home. There's no cost to have your regular medication, specialty drugs and other prescriptions dropped off. Just pay your prescription copay.

Here's how easy it is:

Step 1: Sign up for home delivery.

Call **(800) 456-2112**, Monday through Friday from 8 a.m. to 6 p.m.

Or, visit hap.org/delivery.

Have your HAP ID card and a list of prescriptions you'd like to transfer ready.

Step 2: You'll get a call from Pharmacy Advantage.

They'll make sure your medication is covered, get prescriptions from your doctor, and call your pharmacy to transfer it all. If you use Pharmacy Advantage to fill your prescriptions, the pharmacists can answer medication-related questions. If needed, they can also help you find assistance programs.

Step 3: Set up automatic refills.

Before you run out of a prescription, Pharmacy Advantage will ship a refill to your home.

Or, they'll call you when it's time to refill.

Have prescriptions delivered right to your door.

Just allow 4 to 5 business days for them to be dropped off. Prescriptions can be delivered to most states and wherever is most convenient.*

**HAP is here, with free, fast and easy prescription home delivery.
Sign up to get started.**

*Pharmacy Advantage is currently licensed to deliver to 47 states. Call (800) 456-2112 for more information.
