Community Mental Health Agencies

Mid-State Health Network (MSHN)

MSHN is the Prepaid Inpatient Health Plan (PIHP) for 21 Michigan counties and partners with the Community Mental Health (CMH) agencies in these counties. MSHN, CMH and local providers offer mental health services to:

- Adults with severe and persistent mental illness
- Children with severe emotional disturbance
- Individuals with intellectual/developmental disabilities
- Individuals with substance use disorders

For more information, visit midstatehealthnetwork.org

Help for Pregnant Women

Call the Community Mental Health Access Center in the county of residence:

- Huron County Behavioral Health (800) 356-5568

For more information, visit region10pihp.org and select Services & Supports.

Other Resources

For Michigan residents with mild to moderate mental health issues

Refer patient to the local Federally Qualified Health Center (FQHC). FQHCs offer both OBGYN and in-house behavioral health and social support services. Most FQHCs have prenatal education classes and offer in-home nursing visits for a period of time following the birth of the child in order to continue to support the parent from a medical as well as social/emotional health standpoint.
