

**HAP
IS HERE**

Bringing you
vision benefits
you'll have to
see to believe

We're proud to offer our members top-notch coverage for eye care. All HAP plans include an annual eye exam – at no additional cost – from a vast network of eye care professionals. These include:

- Henry Ford OptimEyes
- SVS Vision Optical Centers
- Family Eye Care Associates
- Fraser Optical
- General Optical
- Northwest Eye Physicians, P.C.
- Rx Optical
- Andersen Eye Associates

A complete list of eye care professionals in our network is available at hap.org/doctors.

Qualified health plan coverage for small employer groups and individuals

All members 18 years of age or under can receive a pair of “collection” eyeglasses or contacts once every benefit period. Coverage remains in effect until the end of the year in which the member turns 19. Collection eyeglasses and contacts are those covered under the member's plan. The benefit includes single vision, conventional (lined) bifocal or trifocal lenses and lenticular lenses without out-of-pocket costs. The following are also covered in the plan:

- Glass, plastic or polycarbonate lenses
- Fashion and gradient tinting
- Oversized lenses
- Scratch-resistant coating
- Glass-grey #3 sunglasses (prescription only)

Benefits for collection frames or contacts are available once every benefit period, even without a change in prescription. There's a wide selection of frames and contacts to choose from.

Coverage for large employer groups

Coverage for eyeglasses includes collection frames and either glass or plastic lenses that meet the standards of the American National Standards Institute. This includes tinted lenses equal to pink tints #1 and #2. Collection contacts are covered in place of eyeglasses. Eyeglasses or contacts are covered once during a consecutive 12-month period.

HAP and its subsidiaries do not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation or health status in the administration of the plan, including enrollment and benefit determinations.
