

Appointment Time Access Standards For Primary Care, Behavioral Health and High-Volume, High-Impact Specialists

HAP and HAP Empowered have established standards for appointment availability to ensure patients have timely access to care. HAP and HAP Empowered providers are required to adhere to our standards, per their contract.

The standards vary between member plans. There are standards for primary care and behavioral health. We also have standards for high-volume, high-impact specialists. At a minimum, high volume specialties include obstetrics/gynecology and high-impact specialties include oncology. We also include the top two specialties based on claims volume in our study which can vary from year to year.

Monitoring

Annually, compliance with our appointment time access standards is monitored through the following physician surveys:

Survey	What's Measured
After Hours Study	PCP offices meet our standard for reaching a physician after office hours
Appointment Lead Time	How long it takes to schedule well, sick, and urgent visits with doctor offices
Coordinated Behavioral Health Management Lead Time	How long it takes to schedule non-urgent and urgent behavioral health doctor appointments
PCP Secret Shopper Survey for MI Health Link	To measure how long it takes to schedule well, sick, and urgent visits with doctor offices

We also monitor member complaints regarding access issues that are reported to the HAP Appeals and Grievance Team and Customer Service.

We may contact physicians who have deficient results from surveys to provide education on our standards.

Where to find our standards

A copy of this document can be found on hap.org/providers, then provider resources; forms and other information.

Please see the next page for HAP and HAP Empowered appointment time access standards.
