

Health Alliance Plan and CareSource to Partner in Michigan

February 21, 2023

Today is an exciting and pivotal day on HAP's journey to transforming health care in Michigan. HAP is announcing a joint venture with [CareSource](#) with the goal of exploring new opportunities to better serve the people of Michigan. Specifically, we aim to provide expansive and higher quality health care coverage across the state through a combined Medicaid and MMP offering and planned re-entry to the Health Insurance Marketplace (Individual Exchange) in 2025. [CareSource](#), an Ohio-based non-profit health plan provider, and one of the nation's largest managed Medicaid care plans, was identified as an ideal partner for HAP and for Michigan.

The expanded offerings this partnership will deliver demonstrates the ongoing commitment of HAP to providing Michigan residents with more equitable and accessible care.

You can learn more about this new partnership by reading the [press release](#).
