

The HAP Pledge

HAP continually strives to ensure that its members receive all necessary services at the appropriate time and in the appropriate setting. Utilization management decision-making is based on the appropriateness of care and service and the existence of coverage. HAP does not reward practitioners or other individuals conducting utilization review for issuing denials of coverage or service. HAP decisions are not based on incentives. HAP does not offer financial incentives to encourage inappropriate underutilization of covered services.

To assist in the continual improvement of health care delivery, practitioners and physicians may obtain clinical criteria or discuss utilization management decisions. (Note: certain clinical criteria or guidelines may be applicable only to governmental programs or only to commercial plans). Criteria used in decision-making may include InterQual, HAP criteria, the HAP Benefit Administration Manual, eviCore healthcare criteria, pharmaceutical clinical criteria, national guidelines, landmark trials, peer-reviewed journal publications, Medicare national and local coverage guidelines, Medicare COMPENDIA such as DrugDex and American Hospital Formulary Service, medical resources such as UpToDate® and, at times, guidelines from other local/national health plans.

To discuss a utilization management decision or process with a physician reviewer or health care professional reviewer or to obtain a copy of the criteria used in the decision-making process, practitioners may contact HAP as outlined in the table below. Please have the member's name and HAP ID number available to assist in accessing the case. HAP physician reviewers are board certified and have current Michigan licenses to practice without restriction.
