Licensed and board-certified doctors are on hand to treat non-emergent illnesses, such as colds, flu, headaches, rashes, sinus infections and pink eye. Telehealth is a safe and easy way to see a health provider when going in person isn't an option. It's as simple as using your computer, tablet or smartphone with a shared link to enable video, or other electronic devices. For more information, visit hap.org/health-programs/telehealth-services.

Your vision just got better with EyeMed

Your eye health is important to HAP. That's why we're excited to announce that starting January 1, 2022, we will be partnering with EyeMed to provide our members with expanded access to a nation-wide network of doctors for their routine eye care needs.

UAW Trust members will retain the benefits they have with HAP plan while gaining discounts on vision products and services from providers across the country.

In-network coverage while you travel

With your HAP HMO Medicare Advantage plan, you now receive in-network prices for copays on routine services when you visit Medicare-participating providers in Arizona, Florida, Michigan (out of service area) and Texas for up to six months. Medicare Retirees can enjoy the flexibility of traveling with a HAP HMO.

Here, working hard to keep you healthy

Care Management

It can be hard to manage a chronic health issue such as diabetes or asthma. That's why many of our Medicare plans include a free care management program. Care management provides education and support to help you follow your care plan and keep your daily health goals on track. This program helps you understand your health issues and learn to manage them.

Healthy Living Rewards Program

HAP rewards Medicare members for getting the tests you need. You'll get rewarded automatically. Each quarter, we'll track your rewards by looking at the claims your HAP doctor sends us. Then we'll mail a voucher for the value of the rewards you earned. Redeem your rewards for your choice of a gift card from national retailers.

Not your ordinary HMO plan

When enrolled in HAP's HMO plan, you can choose your doctor from thousands of highly qualified primary care physicians (PCPs). Your PCP may recommend specialty services from a certain specialist or facility, but you can choose to receive the care you need from any HAP contracted specialist without a referral.

With HAP, you can change your PCP whenever you want to. And everyone on your plan can select the PCP of their choice.
