**When you have Medicaid, the Michigan Department of Health and Human Services will send you a mihealth card in the mail.** The mihealth card does not guarantee you have coverage. Your provider will check that you have coverage at each visit. You may need your mihealth card to get services that HAP Empowered does not cover. Always keep this card even if your Medicaid coverage ends. You will need this card if you get coverage again.

**If you have questions about this coverage or need a new mihealth card, you should call the Beneficiary Help Line at (800) 642-3195.** This number is located on the back of your mihealth card.

**It is important to keep your contact information up to date so you don’t lose any benefits.** Any changes in phone number, email, or address should be reported to MDHHS. You can do this by calling your local MDHHS office or by visiting michigan.gov/mibridges. If you do not have an account, you can create one by selecting “Register”. Once in your account, when reporting changes, please make sure you do so in both the profile section and the report changes area.

---

**Important ID Card Notes**

- **+** Carry both cards with you at all times and show them each time you go for care.
- **+** Make sure all of your information is correct on both cards.
- **+** Call your local MDHHS office to change your records if your name, address, phone number or email changes.
- **+** When getting care you may be asked to show a picture ID. This is to make sure the right person is using the card.
- **+** Do not let anyone else use your cards.

Transition of Care

If you're new to HAP Empowered, you may be able to keep your doctors and services for at least 90 days from your enrollment date. Examples include medical, behavioral health, and pharmacy services.

If you are pregnant, you can stay with your doctor through the pregnancy and post-partum period.

If you are a HAP Empowered member and your doctor(s) no longer participates with us, you may be able to see your doctor if you are receiving treatment for certain chronic diseases.

We will not approve continued care by a non-participating doctor if:

• You only require monitoring of a chronic condition
• The doctor has a restriction and you might be at risk
• The doctor is not willing to continue your care
• Care with the non-participating doctor was started after you enrolled with HAP Empowered
• The doctor does not meet HAP Empowered policies or criteria

HAP Empowered will help you choose new doctors and help you get services in our network. Your doctor may call Customer Service at (888) 654-2200 (TTY: 711) if they want to be in our network.

If you are receiving Children’s Special Health Care Services (CSHCS), please contact us for help transitioning your care services.

Please contact Customer Service at (888) 654-2200 (TTY: 711) to request transition of care services or if you have any questions about your care.

Choosing A Primary Care Provider

When you enroll in our plan, you will need to choose a primary care provider (PCP). Your PCP is the health care provider or doctor who takes care of all your health needs. You can choose a different doctor for each family member, or you can choose one doctor for the whole family.

You can choose one of the following provider types as your primary care provider:

• General practice doctor
• Family practice doctor
• Nurse Practitioner
• Internal medicine doctor
• Pediatrician doctor
• OB/GYN doctor

If you do not choose a doctor within 30 days of enrollment, we will select one for you. You can change your doctor anytime.

You do not need a referral to see an in-network pediatrician or OB/GYN provider for routine and preventive health services.

You can use our Provider Directory to find doctors and specialists that are in our network. The Provider Directory lists addresses, office hours, languages spoken, and information about accessibility. It is located at hap.org/find-a-doctor. You can view or print the provider directory from the website. You can also request a copy of our provider directory, free of charge by calling Customer Service at (888) 654-2200 (TTY: 711). Remember provider information changes often. Visit our website for the most up-to-date information. Call Customer Service at (888) 654-2200 (TTY: 711) if you need help finding a doctor.

Questions? Call HAP Empowered Customer Services at (888) 654-2200 or TTY 711. Visit our website at hap.org/Medicaid.
You can also get medical care from these types of medical providers: Federally Qualified Health Centers (FQHC), Rural Health Clinics (RHCs), Indian Health Care Providers (IHCPs) (as applicable).

If you have certain health care needs, you may be able to choose a specialist as your primary care provider. Talk to your doctor or call Customer Service at (888) 654-2200 (TTY: 711) for more information.

Make sure you ask the provider office if they participate in the HAP Empowered network.

**Getting Care from Your Doctor**

Your doctor’s office should be your main source for medical health. You should see your doctor for preventive checkups. Call your doctor’s office to make an appointment or if you have questions about your medical care. If you need help setting up an appointment, please call us at Customer Service at (888) 654-2200 (TTY: 711).

Your visit is important. Please be on time. Call the office as soon as you can if you cannot make it to your visit. You can set up a new visit when you call to cancel. Some offices will not see you again if you do not call to cancel.

**Getting Care from a Specialist**

If you need care that your doctor cannot give, they will refer you to a specialist who can. Your doctor works with you to choose a specialist and arrange your care. If you have special health care needs or a chronic health problem like diabetes or renal disease, you may be able to have a specialist take care of you as your PCP. Talk to your doctor or call Customer Service at (888) 654-2200 (TTY: 711) for more information.

**Out-of-Network Services**

You must get most of your care from providers in our provider network. Customer Service at (888) 654-2200 (TTY: 711) can help you find a provider in our network.

If we do not have a doctor or specialist in our provider network in your area who can give you the care you need, or if we do not have a provider that can see you timely, we will get you the care you need from a provider outside our network. This is called an out-of-network referral. We will only cover the services by an out-of-network provider if we are unable to provide a necessary and covered service in our network and if you have approval before your appointment. We will coordinate payment with the out-of-network provider. We also ensure that the cost to you is no greater than it would be if the service was provided in-network.

**Physician Incentive Disclosure**

Your health is our first concern. We do not pay doctors, workers, or other providers to withhold care

Questions? Call HAP Empowered Customer Services at (888) 654-2200 or TTY 711.

Visit our website at hap.org/Medicaid.
or services. We do not reward anyone for denying services. We do not have incentives for decision makers. Decisions about your health care are based on quality medical care and benefit coverage.

Prior Authorization

Some services, supplies, and medications will need to be approved before you or your child can get them. This is called Prior Authorization (PA). Your doctor needs to fill out a Prior Authorization Request Form and send it to us if you need care that requires PA. We must approve the PA request before you get the care. If we do not approve the service, we will notify the doctor and send you a written notice of the reason for the decision.

Getting a Second Opinion

If you do not agree with your doctor’s plan of care for you, you have the right to a second opinion. There is no additional cost to you for a second opinion from a HAP Empowered network provider. Second opinions sometimes require prior authorization from us. Please call Customer Service at (888) 654-2200 (TTY: 711) to learn how to get a second opinion. You can get a second medical opinion from an out-of-network provider if someone in-network is not available. HAP Empowered will arrange for an out-of-network provider. HAP Empowered approval is required.

Information About Your Covered Services

It is important you understand the benefits covered under your plan. As a HAP Empowered member you do not have to pay co-pays for covered services. NOTE: You may have co-pays for covered services if you are a Healthy Michigan Plan member. You may also have to pay a monthly premium for the MIChild program. See Cost Sharing and Copayments section for more information.

If there are any significant changes to the covered services outlined in this handbook, we will notify you in writing at least 30 days before the date the change takes place.

This list of benefits and exclusions may not be a complete list. More benefits not listed here may be available. Limits and exclusions may apply to each item on this list. Your Certificate of Coverage (COC) has the complete list of covered care. Visit Member Resources section on hap.org/Medicaid to find COC. If you want a printed copy of the COC or have questions regarding your benefits, call Customer Service at (888) 654-2200 (TTY: 711).

Make sure a service is covered before the service is done. You may have to pay for services not covered by HAP Empowered under the Medicaid program.

HAP Empowered does not deny reimbursement or coverage for services on any moral or religious grounds.

Telehealth/Telemedicine services

Telehealth/Telemedicine care is a convenient way to get care for a variety of common illnesses without having to go to the emergency room or urgent care. For non-emergency issues, including the flu, allergies, rash, upset stomach, and much more, you can connect with a doctor through your phone or computer to receive care where you are, when you need it. Doctors can diagnose, treat, and even prescribe medicine, if needed. Call your doctor’s office to see if they offer telehealth services or contact Customer Service at (888) 654-2200 (TTY: 711) for more information.

Prescription Drugs

You pay zero for covered drugs. For drugs your doctor prescribes, you must use a pharmacy in the network. You can find a list of doctors and pharmacies at hap.org/find-a-doctor.

Always take your HAP Empowered and mihealth ID cards to the pharmacy. There are some drugs that are covered by the State with your mihealth card. These are called carve-out drugs. Your pharmacy will know which card to use.

We use a drug list called the preferred drug list or common formulary. Drugs on the list are covered. Sometimes the brand-name drug is covered instead of the generic drug. Your pharmacy will give you the drug that is covered. We also cover some over-the-counter drugs if your doctor gives you a prescription. Some examples are pain medicines such as aspirin, Tylenol, and ibuprofen. We also cover products to help you stop smoking, insulin syringes and test strips, and condoms.

We cover up to a one-month supply for most drugs. We cover a three-month supply of certain drugs you take every day. We cover up to a one-year supply of birth control pills, patches and the vaginal ring. For safety, we limit how soon you can refill your drugs.

Some drugs need approval to be covered. Some drugs have restrictions or a limit on how many you can get. Or you might need to try one drug before another drug is covered. We work with your doctor when approval is required. If you need a drug that isn’t on the list or isn’t covered, you or your doctor can ask for an exception. The drug list is developed by the State and health plans and is updated at least 4 times a year. If we make a change in the drug list the affects you, we will send a letter to you and your doctor so you can talk to your doctor about the change.

If you are new to HAP Empowered and are already taking a drug that is not covered or has restrictions, we will work with your doctor or pharmacy for a temporary supply.

You can find the drug list and changes to the drug list at hap.org/medicaidformulary. You can search the drug list by brand or generic name of the drug. You can also ask for a printed copy of the list. Just call Customer Service at (888) 654-2200 (TTY: 711).

Children’s Health

Children change a lot as they grow. They should see their doctor at least once a year to check their growth, even if they are healthy. This is known as a well-child visit. Well-child visits are a good time for you to ask questions about your child’s health and how it can be better. Children can see a pediatrician for routine preventive care and well-child visits without a referral. Children up to three years old are recommended to have a developmental screening done with their doctor once a year.

Babies from birth through 15 months need at least six well-child visits. These visits often are at these ages:

<table>
<thead>
<tr>
<th></th>
<th>3-5 days</th>
<th>2 weeks</th>
<th>1 month</th>
<th>2 months</th>
<th>4 months</th>
<th>6 months</th>
<th>9 months</th>
<th>12 months</th>
<th>15 months</th>
</tr>
</thead>
</table>

It is important for your child to get a blood lead test once before age one and again before age two. Children who are at risk or who are high risk should be checked more often. These children should be tested at least once per year. Children who are high risk are those who have had lead poisoning in the past. This includes children who live in old homes or apartments. Lead poisoning can happen even if you do not live in an older home. Lead can be found in paint, soil, ordinary dust, playgrounds, and toys, as well as other places. Have your child tested for lead poisoning so that it may be treated. If untreated, lead poisoning can lead to disabilities and behavioral problems. This simple test will help keep your little one on track!

Teenagers should also receive annual well-child visits. At these visits, teens will have their height, weight and BMI checked. Providers can talk about health, safety and preventive measures that are useful to teens. Required immunizations can also be given at these visits.

Early Periodic Screening, Diagnosis and Treatment (EPSDT)

EPSDT is a special healthcare program for children under 21 years of age who are covered by Medicaid. Under EPSDT, children and teens enrolled in Medicaid receive all recommended preventive services and any medical treatment needed to promote healthy growth and development.

If your child has a serious, chronic medical condition, they may be eligible for Children’s Special Health Care Services (CSHCS).

CSHCS provides extra support for children and some adults who have special health care needs. This is in addition to the medical care coordination from HAP Empowered.

There is no cost for this program. It doesn’t change your child’s HAP Empowered benefits, service, or doctors. CSHCS provides services and resources through the following resources through the following agencies.

**MDHHS Family Center for Children and Youth with Special Health Care Needs:**

This center provides a parent support network and training programs. It may also provide financial help for conferences about special needs and more. If you have questions about this program, call the CSHCS Family Phone Line at (800) 359-3722 from 8 a.m. to 5 p.m. Monday through Friday.

**Services Include:**

- Parent-to-parent support network
- Parent/professional training programs
- Financial help to attend a conference about CSHCS medical conditions
- Financial help for siblings of children with special needs to attend conferences and camps

**Local County Health Department:**

Your local county health department can help you find local resources. These may include parent support groups, adult transition help, childcare, vaccines and more. For help finding your local county health department, visit your county’s website or Michigan.gov. Call Customer Service at (888) 654-2200 (TTY: 711) for assistance.

**Children’s Special Needs Fund:**

The Children’s Special Needs fund helps families get items not covered by Medicaid or CSHCS. These items promote the health, mobility, and development of your child. They may include wheelchair ramps, van lifts and mobility equipment. To see if you qualify for help from this fund call (517) 241-7420.

Hepatitis C

Treatment is available for Hepatitis C. Hepatitis C is a liver infection caused by the Hepatitis C virus. It’s spread through contact with blood from an infected person, even amounts too small to see. People with Hepatitis C often don’t feel sick or show symptoms. When symptoms do appear, they’re often a sign of advanced liver disease. It’s important to get tested (screened) for Hepatitis C before it becomes severe, when it’s easier to treat. All adults should be screened for Hepatitis C at least once. Pregnant beneficiaries should be screened during each pregnancy.

For members under age 21, the screening is covered under the Early and Periodic Screening, Diagnosis and Treatment program, or EPSDT. This includes coverage of any medically necessary follow-up services and referrals.

Hospital Care

Hospital care is for care like delivering a baby or taking care of a bad sickness. It also covers care you would get in the hospital, like lab tests or x-rays. Your doctor sets up your hospital care if you need it. A different doctor at the hospital may fill in for your doctor to make sure you get the care you need if an emergency happens.

You should call your doctor as soon as you are admitted (checked in) to the hospital if it was not arranged by your doctor. Ask a family member or friend to call for you if you cannot. It is important to call your doctor right away and set up a visit within seven days of being sent home. You can talk about and arrange your care after you leave the hospital during this follow-up visit.

Emergency Care

Emergency care is for a life-threatening medical situation or injury that a reasonable person would seek care right away to avoid severe harm. Here are some examples of emergencies:

<table>
<thead>
<tr>
<th>Convulsions</th>
<th>Broken bones</th>
</tr>
</thead>
<tbody>
<tr>
<td>Uncontrollable bleeding</td>
<td>Loss of consciousness (fainting or blackout)</td>
</tr>
<tr>
<td>Chest pain</td>
<td>Jaw fracture or dislocation</td>
</tr>
<tr>
<td>High fever</td>
<td>Tooth abscess with severe swelling</td>
</tr>
<tr>
<td>Serious breathing problems</td>
<td>Knife or gunshot wounds</td>
</tr>
</tbody>
</table>

If you believe you have an emergency, call 911 or go to the emergency room. You do not need an approval from HAP Empowered or your doctor before getting emergency care. You can go to any hospital. Be sure to follow up with your doctor to make sure you get the right follow-up care and services.

Urgent Care and After-Hours Care

Urgent care centers and after-hours clinics are helpful if you need care quickly but can’t see your primary care doctor. You don’t need a referral or prior authorization to go to an urgent care center or after-hours-clinic in our network.

These places can treat illnesses that should be cared for within 48 hours, such as the flu, high fevers, or a sore throat. They can also treat ear infections, eye irritations and low back pain. If you fell and have a sprain or pain, it can be treated at an urgent care center.

If you aren’t sure if you need urgent care, call your doctor. They may be able to treat you in their office.

Routine Care

Routine care is for things like:
- Yearly wellness exams
- School physicals
- Health screenings
- Immunizations
- Vision and Hearing Exams
- Lab tests

Your doctor should set up a visit within 30 business days of request.

Mental Health and Substance Abuse Services

We want you to feel your best, including your mental and emotional feelings. To help you, we cover short-term treatment for mental or emotional needs. This applies to members with mild to moderate mental health services. These visits may be with a network therapist, such as a counselor, licensed clinical social worker or psychologist. Telehealth may be an option for you. Talk to your mental health provider to learn more. Treatment for long term, severe mental conditions, or severe emotional disturbances for children, as well as inpatient and intensive outpatient treatment must be arranged through the local Community Mental Health Services Program (CMHSP) agency. CMHSP can also help refer you to the right local agency when you or a family member has problems or concerns about drugs or alcohol. If you feel you have a substance abuse problem, we encourage you to seek help. If you need help getting services, call your doctor or Customer Service at (888) 654-2200 (TTY: 711).

Care Coordination

Do you have a chronic health problem or disability? Do you have barriers that are causing you issues with accessing your care? Do you see multiple providers or need special care? It's easy to feel overwhelmed with being in charge of your care if you have many health issues and see many providers. It can add more stress to your daily life. We are here to help you!

Our goal is to offer personalized care coordination services to help guide you through health care. We have nurses, care coordinators, social workers, and other health experts to help you get the best care possible from your care team.

The care coordination program focuses on you and your needs. We help you reduce the barriers you are having accessing your care by linking you to services and resources near you to help improve your health. We also assist you in reducing your barriers by helping to arrange care with your care team and providers. This ensures you are able to better manage your health and improve your quality of life.

How Can Care Coordination Help You?
If you are eligible, you will be assigned your own care coordinator. This person helps you address and eliminate barriers that cause you issues with obtaining care by:

- Completing assessments and reviewing medications
- Making a plan of care to help you identify and meet your health goals
- Linking you with services and community resources near you, including the local health departments
- Helping you better control your healthcare needs
- Collaborating with your providers
- Taking a person-centered approach in the management of your care needs by supporting you and your care team with understanding the medical and behavioral health benefits

Call Customer Service at (888) 654-2200 (TTY: 711) for more information about the care coordination program.

Community Health Workers (CHW)

- Meeting face to face to improve your access to health care
- Helping others find providers and set up visits
- Finding local support like food and housing
- Teaching ways to live a healthy life

Some medical conditions need special equipment. Durable medical equipment we cover includes:

- Equipment such as nebulizers, crutches, wheelchairs, and other devices
- Disposable medical supplies, such as ostomy supplies, catheters, peak flow meters and alcohol pads
- Diabetes supplies, such as lancets, test strips, insulin needles, blood glucose meters and insulin pumps.

To get durable medical equipment, you need a prescription from your doctor. You may also need prior authorization from us. You must get your item from a network provider. To find network durable medical equipment providers, call Customer Service at (888) 654-2200 (TTY: 711).

Benefits Monitoring Program

We participate in MDHHS’ Benefits Monitoring Program. This program helps ensure you’re using the correct benefits and services to manage your care. If the services you use aren’t needed for your health condition, we’ll enroll you in this program. We’ll teach you the proper use of medical services and help you get services from appropriate providers. Examples of things that could get you enrolled in this program include:

- Going to the emergency room when it’s not an emergency
- Seeing too many different doctors instead of your primary care doctor
- Getting more medicines than may be safe
- Activity that may indicate fraud

Using the right health services in the right amount helps us make sure you’re getting the very best care.

Tobacco Cessation

We want to help you quit smoking. If you smoke, talk to your doctor about quitting. If you are pregnant and smoke, quitting now will help you and your baby. Your doctor can help you. Grievances and Appeals

We want you to be happy with the services you get from HAP Empowered and our providers. If you are not satisfied, you can file a grievance or appeal.

Grievances are complaints that you may have if you are unhappy with our plan or if you are unhappy with the way a staff person or provider treated you. Appeals are complaints related to your medical coverage, such as a treatment decision or a service that is not covered or denied. If you have a problem related to your care, talk to your doctor. Your doctor can often handle the problem. If you have questions or need help with the appeal process, call HAP Empowered at (888) 654-2200 (TTY: 711).
Grievance Process

We want to know what is wrong so we can make our services better. If you have a grievance about a provider or about the quality of care or services you have received, let us know right away. If you aren’t happy with us or your doctor, you can file a grievance at any time. HAP Empowered has special procedures in place to help members who file grievances. We will do our best to answer your questions or help to resolve your concern. Filing a grievance will not affect your health care services or your benefits. These are examples of when you might want to file a grievance.

• Your provider or a(n) HAP Empowered staff member did not respect your rights.
• You had trouble getting an appointment with your provider in an appropriate amount of time.
• You were unhappy with the quality of care or treatment you received.
• Your provider or a(n) HAP Empowered staff member was rude to you.
• Your provider or a(n) HAP Empowered staff member was insensitive to your cultural needs or other special needs you may have.

You can file your grievance on the phone by calling HAP Empowered at (888) 654-2200 (TTY: 711). You can also file your grievance in writing via mail or fax at:

Attention: Appeal and Grievance Department
HAP Empowered PO Box 2578
Detroit, MI. 48372

In the grievance letter, give us as much information as you can. For example, include the date and place the incident happened, the names of the people involved and details about what happened. Be sure to include your name and your Medicaid member ID number. You can ask us to help you file your grievance by calling (888) 654-2200 (TTY: 711). We will let you know when we have received your grievance. We may contact you for more information.

At any time during the grievance process, you can have someone you know represent you or act on your behalf. This person will be your “representative.” If you decide to have someone represent you or act for you, inform HAP Empowered in writing with the name of your representative and their contact information. Your grievance will be resolved within 90 calendar days of submission. We will send you a letter of our decision.

Appeal Process

An appeal is a way for you to ask for a review of our actions. If we decide that a requested service or item cannot be approved, or if a service is reduced or stopped, you will get an “Adverse Benefit Determination” letter from us. This letter will tell you the following:

• The adverse benefit determination the contractor has made or intends to make
• Your right to be provided upon request and free of charge, copies of all documents, records, and other information used to make our decision.
• What action was taken and the reason for it
• Your right to file an appeal and how to do it
• Your right to ask for a State Fair Hearing and how to do it
• Your right in some circumstances to ask for an expedited appeal and how to do it
• Your right to ask to have benefits continue during your appeal, how to do it, and when you may have to pay for the services

Questions? Call HAP Empowered Customer Services at (888) 654-2200 or TTY 711. Visit our website at hap.org/Medicaid.
You may appeal within 60 calendar days of the date on the Adverse Benefit Determination letter. If you want your services to stay the same while you appeal, you must say so when you appeal, and you must file your appeal no later than 10 calendar days from the date on the Adverse Benefit Determination. The list below includes examples of when you might want to file an appeal.

- Not approving or paying for a service or item your provider asks for
- Stopping a service that was approved before
- Not giving you the service or items in a timely manner
- Not telling you of your right to freedom of choice of providers
- Not approving a service for you because it was not in our network

You can file your appeal on the phone by calling HAP Empowered at (888) 654-2200 (TTY: 711). You can also file your appeal in writing via mail or fax at:

**Attention: Appeal and Grievance Department**
HAP Empowered PO Box 2578
Detroit, MI. 48372

You have several options for assistance. You may:

- Call Customer Service at (888) 654-2200 (TTY: 771) and we will assist you in the filing process
- Ask someone you know to assist in representing you. This could be your primary care provider or a family member, for example.
- Choose to be represented by a legal professional.

To appoint someone to represent you, either: 1) send us a letter informing us that you want someone else to represent you and include in the letter their contact information or, 2) fill out the HAP Authorization to Release Personal Health Information form. You may call and request the form or find this form on our website at hap.org/hap-empowered/privacy.

We will send you a notice saying we received your appeal. We will tell you if we need more information and how to give us such information in person or in writing. A provider with the same or similar specialty as your treating provider will review your appeal. It will not be the same provider who made the original decision to deny, reduce, or stop the medical service.

HAP Empowered will send our decision in writing to you within 30 calendar days of the date we received your appeal request. HAP Empowered may request an extension up to 14 calendar more days in order to get more information before we make a decision. You can also ask us for an extension if you need more time to get additional documents to support your appeal.

We will call you to tell you our decision and send you and your authorized representative the Decision Notice. The Decision Notice will tell you what we will do and why.

If HAP Empowered’s decision agrees with the Notice of Adverse Benefit Determination, you may have to pay for the cost of the services you got during the appeal review. If HAP Empowered’s decision does not agree with the Notice of Adverse Benefit Determination, we will approve the services to start right away.

Questions? Call HAP Empowered Customer Services at (888) 654-2200 or TTY 711. Visit our website at hap.org/Medicaid.
Things to keep in mind during the appeal process:

- At any time, you can provide us with more information about your appeal, if needed.
- You have the option to see your appeal file.
- You have the option to be there when HAP Empowered reviews your appeal.

How Can You Expedite Your Appeal?

If you or your provider believes our standard timeframe of 30 calendar days to make a decision on your appeal will seriously jeopardize your life or health, you can ask for an expedited appeal by writing or calling us. If you write to us, please include your name, member ID number, the date of your Notice of Adverse Benefit Determination letter, information about your case, and why you are asking for the expedited appeal. We will let you know within 24 hours if we need more information. Once all information is provided, we will call you within 72 hours from the time of your request to inform you of our decision and will also send you and your authorized representative the decision notice.

How Can You Withdraw an Appeal?

You have the right to withdraw your appeal for any reason, at any time, during the appeal process. However, you or your authorized representative must do so in writing, using the same address as used for filing your appeal. Withdrawing your appeal will end the appeal process and no decision will be made by us on your appeal request. HAP Empowered will acknowledge the withdrawal of your appeal by sending a notice to you or your authorized representative. If you need further information about withdrawing your appeal, call HAP Empowered at (888) 654-2200 (TTY: 711).

What Happens Next?

After you receive the HAP Empowered appeal Decision Notice in writing, you do not have to take any action and your appeal file will be closed. However, if you disagree with the decision made on your appeal, you can take action by asking for a State Fair Hearing from the Michigan Office of Administrative Hearings and Rules (MOAHR) and/or asking for an External Review under the Patient Right to Independent Review Act (PRIRA) from the Michigan Department of Insurance and Financial Services (DIFS). You can choose to ask for both a State Fair Hearing and an External Review or you may choose to ask for only one of them.

State Fair Hearing Process

You, your representative, or your provider can ask for a State Fair Hearing with MOAHR. You must do this within 120 calendar days from the date of your appeal denial notice. A Request for Hearing form will be included with the notice of appeal decision that you receive from us. It has instructions that you will need to review. If you want to continue your services during the State Fair Hearing process, you must ask for a State Fair Hearing Appeal within 10 calendar days of the date on the decision notice. If you do not win this appeal, you may be responsible for paying for the services provided to you during the appeal process. You can also ask for a State Fair Hearing if you do not receive a decision from us within the required time frame.

Call HAP Empowered at (888) 654-2200 (TTY: 711) if you need a hearing request form sent to you. You may also call to ask questions about the hearing process. You will get a written notice of hearing from MOAHR telling you the date and time of your hearing. Most hearings are heard
by telephone, but you can ask to have a hearing in person. During the hearing, you will be asked to tell an administrative law judge why you disagree with our decision. You will get a written decision within 90 calendar days from the date your request for hearing was received by MOAHR. The written decision will explain if you have additional appeal rights.

If the standard timeframe for review would jeopardize your life or health, you may be able to qualify for an expedited State Fair Hearing. If you qualify for one, MOAHR must give you an answer within 72 hours. However, if MOAHR needs to gather more information that may help you, it can take up to 14 more calendar days.

If you have any questions, you can call MOAHR at (800) 648-3397.

External Review of Appeals

It has instructions that you will need to review. DIFS will send your appeal to an Independent Review Organization (IRO) for review. A decision will be mailed to you in 14 calendar days of accepting your appeal. You can also ask for an External Review if you do not receive a decision from us within the required time frame. You, your Authorized Representative, or your doctor can also request a fast appeal decision from DIFS within 10 calendar days after receiving a final determination. Community-Based Supports and Services

We want to provide efficient and appropriate care in a timely manner. We also connect our members to community resources.

- Do you and your family struggle with having enough to eat?
- Do you need help finding a place to stay, or do you need heating assistance?
- Do you need a ride to your doctors’ appointments?
- Do you need help with employment?

If you answered yes to any of the above questions, we can help. We know it’s difficult to get to your doctor for important health screenings or other care when you’re facing these challenges. If you’re struggling with a similar problem, or need assistance, reach out to your care manager. If you don’t have a care manager, and need help please call Customer Service at (888) 654-2200 (TTY: 711).

You can also access resources at the following:

- Online through our website: hap.org/Medicaid

Care Management

We offer a care management program for members with chronic and/or complex health conditions. This is a voluntary program that allows you to talk with a care coordinator about your health care. A care coordinator helps you:

- Coordinate care between health care providers
- Set personal goals to manage your medical conditions
- Talk to your doctors or other providers when you need help
- Understand your medical conditions
- Access community-based supports, services, and resources

If you are interested in joining this program, or a provider suggested care management program, please call Care Management at (800) 288-2902 or email caremanagement@hap.org to be connected with a care coordinator.

Make Your Wishes Known: Advance Directives

HAP Empowered supports your right to file an “Advance Directive” according to Michigan law. This document is a written statement of your wishes for medical care. It explains, in advance, what treatments you want or don’t want if you have a serious medical condition that prevents you from telling your provider how you want to be treated.

The state of Michigan only recognizes an advance directive called a durable power of attorney for health care. To create one, you will need to choose a patient advocate.

This person carries out your wishes and makes decisions for you when you cannot. It is important to pick a person that you know and trust to be your advocate. Make sure you talk with the person to let them know what you want.

Talk to your family and primary care physician about your choices. File a copy of your advance directive with your other important papers. Give a copy to the person you designate as your patient advocate. Ask to have a copy placed in your medical record.

Call Customer Service at (888) 654-2200 (TTY: 711) for more information and the forms you need to write an advance directive.

If your wishes aren’t followed or if you have a complaint about how your provider follows your advance directive, you may file a complaint with:

Department of Licensing & Regulatory Affairs
BPL/Investigations & Inspections Division
P.O. Box 30670 Lansing, MI 48909-8170
Call: (517) 373-9196

Or click below:

If you have complaints about how HAP Empowered follows your wishes, you may call the state of Michigan’s Department of Insurance and Financial Services. Call toll-free at (877) 999-6442 or go to michigan.gov/difs.

Help Identify Health Care Fraud, Waste and Abuse

Medicaid pays doctors, hospitals, pharmacies, clinics, and other health care providers to take care of adults and children who need help getting medical care. Sometimes, providers and patients misuse Medicaid resources. Unfairly taking advantage of Medicaid resources leaves less money to help other people who need care. This is called fraud, waste, and abuse.

Fraud

Fraud is purposefully misrepresenting facts. Here are some examples of fraud:

- Using someone else’s member ID card
- Changing a prescription written by a doctor
- Billing for services that were not provided
- Billing for the same service more than once

Questions? Call HAP Empowered Customer Services at (888) 654-2200 or TTY 711.
Visit our website at hap.org/Medicaid.
Waste
Waste is carelessly or ineffectively using resources. It is not a violation of the law, but it takes money away from health care for people who need it. Here are some examples of waste:

- Using transportation services for non-medical appointments
- Doctors ordering excessive or unnecessary testing
- Mail order pharmacies sending you prescriptions without confirming you still need them

Abuse
Abuse is excessively or improperly using those resources. Here are some examples of abuse:

- Using the emergency room for non-emergent health care reasons
- Going to more than one doctor to get the same prescription
- Threatening or offensive behavior at a doctor’s office, hospital, or pharmacy
- Receiving services that are not medically necessary

You can Help
We work to find, investigate, and prevent health care fraud. You can help. Know what to look for when you get health care services. If you get a bill or statement from your doctor or an Explanation of Benefit Payments statement from us, make sure:

- The name of the doctor is the same doctor who treated you
- The type and date of service are the same type and date of service you received
- The diagnosis on your paperwork is the same as what your doctor told you

Health care fraud is a felony in Michigan. Being involved in fraud or abuse can put your benefits at risk or make other legal problems. If you suspect fraud, waste, and abuse has taken place, please report it. You do not have to give your name. You can call our Compliance Hotline at (877) 746-2001 or write a letter to:

HAP Empowered Health Plan Compliance Officer
P.O. Box 2578
Detroit, MI 48202

All reported cases of suspected fraud, waste, and abuse are monitored and handled by the HAP Office of Compliance and Special Investigations Unit (SIU).

You may also report or get more information about health care fraud by writing:

Office of the Inspector General
P.O. Box 30062
Lansing, MI 48909
Or call toll-free: (855) MI-FRAUD (855) 643-7283

The contractor's decision must be made within 72 hours of receipt of an expedited appeal.

**Experimental/Investigational:** Drugs, biological agents, procedures, devices or equipment determined by the Medical Services Administration Division of MDHHS, that have not been generally accepted by the professional medical community as effective and proven treatments for the conditions for which they are being used or are to be used.

**Grievance:** A complaint that you let your plan know about. You may file a grievance if you have a problem calling the plan or if you're unhappy with the way a staff person or provider treated you. A grievance is not the way to deal with a complaint about a treatment decision or a service that is not covered or denied (see Appeal).

- Physical and occupational therapy
- Speech-language pathology
- Services for people with disabilities

**Health Insurance:** Health insurance is a type of coverage that pays for medical and/or drug costs for people. It can pay the person back for costs from illness or injury. **Home Health Care:** Healthcare services that a healthcare provider decides you need in your home for treatment of an illness or injury. Home health care helps you regain independence and become as self-sufficient as you can.

**Hospice Services:** Hospice is a special way of caring for people who are terminally ill and support to the person's family.
